### **DETAILED ACTION**

Applicant's arguments filed 7/12/06 have been fully considered but they are not persuasive. See argument below.

I. Rejection of claims 1-7 under 35 USC 112, 1<sup>st</sup> paragraph will be maintained in light amendment filed 7/12/06 for reason on record and reason as follows. Applicant argues that one skilled in the art would know what a salt solution of a polyunsaturated fatty acid or a lithium salt solution of a polyunsaturated fatty acid would contain. For instances, Applicant recites that claim 1 discloses a salt solution mixture of PUFA and one or more anti-angiogenic substances. Applicant states that the mixture comprises two components: the first being a salt solution of PUFA and the second being an angiogenic substance. Applicant provides affidavits comprising references regarding salt solutions of a PUFA. Examiner argues that specification and references in affidavits do not explicitly layout the composition of the "salt solution" or "solution mixture". Note that the claims do not read the salt of the PUFA but rather read salt solution of PUFA. Again, specification and references / affidavits do not define the composition of or ingredients in the solution.

II. Rejection of claims 1-4 under 35 USC 112, 2<sup>nd</sup> paragraph will be maintained for reason on record and reason as follows. Applicant recites that claim 1 discloses a salt solution mixture of PUFA and one or more anti-angiogenic substances. Applicant states that the solution mixture comprises two components: the first being a salt solution of PUFA and the second being an angiogenic substance. Applicant provides references regarding salt solutions of a PUFA. Examiner argues that specification and references

Art Unit: 1616

do not explicitly layout the composition of the "salt solution" or "solution mixture". It is still maintained that a solution is a mixture; therefore the phrase "solution mixture" is inappropriate.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
